

Shawn Britton

I've been a long time Guide, Fly Tier & Artist. I presently do the Fishing Shows and have worked at or owned Fishing & Fly shops in the Past. I am extremely pleased to upgrade to new vises. I tied many flies for years on several major brands have not taken the wear and tear well - but -the HMM can handle anything thrown at it with ease of use and versatility on top as well. Whether It's tying up Tube flies, or if I want to change from micro jaws to standard jaws, or to magnum jaws in no time flat... I have all these features and varied products with one vise company. HMM the Vise for me !
